# EXTRACT VANILLA

VANILLA IS SOLD IN THE FORM OF POWDER AND LIQUID. LIQUID VANILLA IS CONSIDERED AS AN EXTRACT. THIS LIQUID IS USED TO FLAVOUR ALL KINDS OF SWEETS, CAKES AND DESSERTS. MANY PEOPLE PREFER TO USE LIQUID ESSENTIAL OIL INSTEAD OF ITS POWDER FORM. THERE ARE DIFFERENT TYPES OF LIQUID VANILLA EXTRACT AND THEY CAN BE COMBINED WITH OTHER INGREDIENTS TO CREATE NEW EXTRACTS/ FLAVOURS.

# VANILLA EXTRACT

## DIZBA

One of the very strong and fragrant flavourings that have been used in the preparation of dry and wet sweets since ancient times is edible vanilla essence, which is available in both liquid and powder forms. Vanilla essence is actually fermented, and Vanilla extract is obtained, and their pleasant aroma and flavour have been utilised in Iranian, Indian, Chinese and European cooking.

### **What's the Difference Between Vanilla Extract and Essence?**

The difference between whole vanilla extract and vanilla essence is that the extract has much more flavor and aroma than the essence, the shelf life is longer due to the type of extraction method and also extract has a wider spectrum of industrial applications.
